JEFF BASS

Seattle, WA | (208)520-9885 | jeffbass9.github.io

Creative front-end developer with nine years of experience collaborating with small teams and handling a wide variety of responsibilities. Experienced in modern web development stacks, with a focus on React and Wordpress.

SKILLS

- React (React Router, Apollo Client)
- Next.js, Vercel
- HTML, CSS, JS, Sass
- ASP.NET (Sitecore CMS)
- Wordpress (themes, plugins, headless)
- Grunt
- DevOps tools (GitHub, Jira, Visual Studio)
- UX/UI Design, Adobe products, Figma

EXPERIENCE

Web Developer
Mindful Support Services
Feb. 2025 – present

- Created custom Wordpress plugins for a marketing website, integrating with the Cognito Forms and Zoho CRM APIs.
- Built a modern deployment pipeline for an existing Wordpress site using Composer.

Web Developer I
Seattle Pacific University
Feb. 2020 – July 2024

- Converted a standard PHP-based Wordpress theme into a redesigned, headless Next.js site. Improved Lighthouse performance score from 43/100 to 98/100.
- Contributed to refactoring effort of main university website repo by removing old dependencies and converting 50+ legacy web components from web forms to MVC.

Web Designer I
Seattle Pacific University
Oct. 2018 – Feb. 2020

- Wrote HTML markup, CSS/Sass, and custom Javascript functionality in tandem with a senior designer and developer, maintaining five Wordpress sites and a large Sitecore CMS website.

Web Designer/Developer
Jeff Bass Design & Development
July 2016 – Feb. 2020

- Wrote four custom Wordpress themes from scratch and three child themes for small business owners and non-profit clients. Provided monthly maintenance on retainer for three clients.

EDUCATION

B.A. in Business Management, minor in Music | Whitworth University | Graduated May 2012
